

BRIDGE Seed Fund Application Guidelines

UNIVERSITY OF
BIRMINGHAM

Background

In March 2014 UoB and UoI formed the **BiR**mingham-**I**llinois Partnership for **D**iscovery, **EnG**agement and **E**ducation (BRIDGE) creating a framework for continued collaboration and investment to grow the strategic partnership between the two institutions.

The BRIDGE partnership recognises the breadth and depth of faculty connections that have flourished over the last four years. Engagement currently spans over 60 established faculty-to-faculty links in key academic disciplines.

The BRIDGE framework aims to deepen these existing collaborations and develop wider faculty networks to: build cognate research areas; expand educational exchange opportunities; and strengthen strategic aspirations for institutional engagement.

To this end, the institutions have established a joint BRIDGE Project Seed Fund to which permanent members of staff at each institution are encouraged to apply.

Criteria

The BRIDGE Project Seed Fund supports collaborative engagement between UoB and UoI with the following priorities:

a. Implementation Grants to support and strengthen existing faculty-faculty relationships leading to clearly defined outputs.

Priority will be given to activities that have the potential to:

- progress joint research priorities;
- connect world-leading researchers;
- enhance our institutional research profiles through collaborative publications;
- build productive, impactful relationships with leading academic, scientific, cultural and policy communities in the region;
- evolve into jointly submitted proposals to external funding agencies for sustained support of collaborative research activities;
- provide distinctive educational opportunities for our students.

b. Initiation Grants to encourage wider faculty involvement and expand institutional engagement. We invite funding applications from colleagues interested in developing new research/educational relationships with counterparts at UoI.

Priority will be given to:

- Applicants who can clearly demonstrate that they have established a potential area of collaboration with UoB/UoI counterparts.

- Activities with the potential to extend beyond individual links to wider – i.e. ‘research group to research group’ – collaborations.
- Projects with the potential for sustained and enlarged collaborative activity.

NOTE: Proposals that have identified funding for sustaining the collaboration beyond BRIDGE Funding for example via the Global Challenges Research Fund (GCRF) or other external funding bodies are particularly encouraged.

Guidelines

There are no restrictions on the forms of activity undertaken with BRIDGE funding, providing they meet the criteria outlined above.

The fund is available to support planning visits, workshops and exchanges with the partner institution for the purpose of developing the strategic partnership. The fund may also support meetings in third party locations where there is potential to develop and/or showcase collaboration.

Activities may include, but are not limited to:

- Academic projects to extend UoB-UoI academic networks and research outputs, joint conferences, workshops, symposia, collaborative experiments and co-authored publications;
- Curriculum innovation and development of joint teaching and learning initiatives;
- Partnership development to provide transatlantic mobility and internship opportunities to ensure the distinctiveness of our high quality student experience;
- Civic and cultural relationship-building to enhance our status as ‘engaged’ universities;
- Trilateral activities that link research projects into wider UoB-UoI strategic regions – including, for example, Brazil, Sweden, China, India.
- Professional staff exchanges or visits that will further enhance the academic collaboration between the two institutions.

Applicants are encouraged to apply for reciprocal visit funding in order to widen networks and cement engagement.

Applications that can demonstrate potential for relationships to become sustainable beyond the proposed project and initial seed funding term are strongly encouraged, whether through faculty and department commitment or the likelihood of externally-leveraged grants and awards (e.g. via the Global Innovation Initiative or Horizon 2020).

BRIDGE seed funding will be allocated locally, with UoB paying the travel and accommodation costs of UoB staff travelling to UoI, and the costs of projects occurring at UoB; and UoI paying the travel and accommodation costs of UoI staff travelling to UoB, and the costs of projects occurring at UoI.

BRIDGE seed funding will be subject to the travel reimbursement and other relevant financial policies of the institution providing the funding to its faculty or units.

BRIDGE seed funding will not normally support staffing or research equipment costs, though such requests will be considered if a compelling argument is made.

Application Process

Applications must be made using the BRIDGE Seed Fund Application Form and provide the following information:

- a) Identified UoB and UoI Principal Investigators.
- b) Purpose and timescale of visit/programme activity.
- c) Anticipated total cost and itemized budget for the proposed activities.
- d) Academic rationale for support:
 - i. What is the strategic importance or added academic value of the collaboration for your home department and University?
 - ii. What are the anticipated shared outcomes and benefits for the collaboration?
- e) Anticipated means of sustaining the collaboration. What funding is available from other sources and what potential is there for future external investment?
- g) Head of College approval. Email confirmation of this support will suffice, and should be forwarded with the application.

It is important that applications are submitted to both Institutions, and that the co-Principal Investigators indicate the level of funding requested from each of the two institutions. Applications should be submitted to the BRIDGE strategic contact at the principal applicant's home institution, with a copy sent to the BRIDGE strategic lead at the partner institution:

BRIDGE Strategic Leads:	
University of Birmingham	Anna Shierson International Relations Officer International Relations University of Birmingham Edgbaston Birmingham B15 2TT Tel : +44 (0) 121 414 7732 a.j.shierson@bham.ac.uk
University of Illinois	Tim Barnes Director, Illinois Strategic International Partnership (ISIP) 507 East Green Street, Suite 401 M/C 417 Champaign, IL 61820 Tel: (217) 333-1990 Fax: (217) 265-0810 email: tebarnes@illinois.edu

The grant review panels at UoB and UoI will liaise to jointly determine which projects will be funded.

Grant recipients will be asked to write a short report within 2 weeks of the visit or activity for which the award was made, and will be asked to present at the BRIDGE Steering Committee or Interest Group, and other appropriate forums (e.g. departmental/College presentations) as requested. Grant recipients will later be asked to provide an update one year after the visit to ensure that longer term outcomes of the engagement can be measured that would not have become apparent in the first report

Application Deadline

There will be one call for BRIDGE seed funding per year, with the following closing date:

April 10th 2017
